Stronger Communities Programme Round 9

The Stronger Communities Programme supports the Australian Government's commitment to deliver social benefits in communities across Australia by funding projects in each of the 151 Federal Electorates. The program provides grants for community projects to strengthen and benefit local communities and is part of the Government's 2024-25 Budget initiatives. Round 9 of the program will run through to 31 December 2025.

What does it offer?

For Round 9 of the program, \$22.65 million is available to provide up to \$150,000 to each federal electorate for eligible community projects that encourage and support participation in local projects, improve local community participation and contribute to vibrant and viable communities.

A maximum of 20 projects will be funded in each federal electorate.

Round 9 of the program aims to support projects that provide social benefits for local communities. For this round, grant funding will be up to 100 per cent of eligible project costs except for local governing bodies where grant funding will be up to 50 per cent of eligible project costs. Local governing bodies must provide matched funding contributions towards their eligible project.

- The minimum grant amount is \$2,500
- The maximum grant amount is \$20,000.
- The maximum cost of your project cannot exceed \$50,000.

How does it work?

Local Federal Members of Parliament (MP) may choose to participate in the program. If they do, they must consult with either an existing consultation committee or establish a new consultation committee with representatives from the local community.

The MP and the consultation committee identify potential applicants and projects in their electorate. The identified projects must be consistent with the intended outcomes of the program and eligibility criteria.

The MP will invite potential applicants to apply for a grant to deliver specific eligible projects. The invitation will provide details on how to apply via the online grant portal. Your MP must advise the Department of Industry, Science and Resources (DISR) of the basis for project selection.

To be eligible you must be invited by your MP to apply, and your project must:

- include at least one of the specific eligible activities that directly aligns with one or more of the program objectives deliver social benefits to your community
- include eligible activities and eligible expenditure
- be located at an address in your MP's electorate (Federal electorate boundaries are as at the 2022 Federal election. Use the Nationalmap.gov.au with reference to the Glossary for more information on determining project location eligibility in electorates)
- be held within your MP's electorate in the case of events or used in your MP's electorate if it includes portable equipment
- have at least \$2,500 in eligible expenditure, unless the applicant is a local governing body which requires at least \$5,000 in eligible expenditure. For Round 9, in-kind contributions are not considered eligible expenditure.

How will my application be assessed?

It is important to note that being invited to submit an application by your MP does not guarantee that your application will be successful.

DISR will assess your application for completeness and against all the eligibility criteria and alignment with program objectives. If eligible, your application will be assessed against the assessment criterion.

To be recommended for funding, your project must meet all eligibility and assessment criteria, provide value with relevant money and be considered a proper use of public resources.

The Program Delegate decides which grants to approve taking into account the eligibility assessment by the department, any reputational risk to the Australian Government, information you provide, and the availability of grant funds.

When can I start my project?

You may start your project from the date you submit your application online.

If you choose to start your project before you enter into a grant agreement with the Commonwealth, any costs incurred are at your own risk. You must incur the project expenditure between the project start and end date for it to be eligible. You will not receive any funding if your application is unsuccessful.

What will I need to do if successful?

You must enter into a grant agreement with the Commonwealth.

The grant agreement will state the:

- maximum grant amount we will pay
- proportion of eligible expenditure covered by the grant (grant percentage).

We will pay 100 per cent of the grant on execution of the grant agreement. You will be required to report how you spent the grant funds at the completion of the project.
